

ISO Course

An 8-hour course conducted by the Insurance Services Office will be held at the Public Safety Facility in McRae-Helena on September 27, 2018. The course will explain what the office is looking for when it performs the site visits. They will explain how the score is calculated and what it means for the area. They will explain the role that each department plays in the overall score. You are not required to stay all day; you can come in for your department only. The plan for the day is as follows:

8:30- Introduction

Communications

Fire Departments

Lunch

Water Department

The Southeast Manager of ISO will be presenting the material. Each department can come for the entire course or only for the segment pertaining to their department. All officials that serve on any council, commission, or board are recommended to attend the entire course to help with understanding the purpose of the ISO, its audit, and how improvements can be made.

Any questions, please contact the McRae-Helena Fire Department @ (229)868-2082, Assistant Chief Greg Young @ (229)315-9284 or Chief Jeff Hardin @ (229)315-0938. Please RSVP to ensure proper accommodations.
