### BACKGROUND

In 2012, ISO updated their Fire Suppression Rating Schedule. This course will introduce individuals to the grading schedule. The newest sections of the grading schedule, which include fire codes, fire investigations and public education, will also be discussed.

The course is taught by John Beard, the SW Indiana Senior Field Representative for ISO. This course is a great opportunity to better understand the ISO Fire Suppression Rating Schedule, the Verification and Grading Process and gaining answers to your questions.

### RSVP REQUIRED

Seating is limited and we anticipate much interest in this class.
