3. Completed tweet with photo and link:

ISO Mitigation @ISO_Mitigation · Mar 22
Congrats Seminole Fire Rescue on your Class 1 ISO rating! Great work! @scfdpio #Seminole bit.ly/22CuFCO

Seminole Fire Rescue Chief Heather Burford with Tom Weber, national director, ISO Community Hazard Mitigation.

Twitter Tips

- Use photos in your tweet to attract the attention of your followers.
- Tweets are limited to 140 characters per tweet. That includes links and hashtags.
- Use hashtags! Two to three hashtags per tweet can help expand your reach (examples of fire-related hashtags: #FireChiefs, #Firefighters, #Wildfire, #ISOPPCClass1).
